

Business Mathematics (BK/IBA) – Quantitative Research Methods I (EBE) Calculators

At the written exam, you may use a calculator, but not every type is allowed.

Allowed types

At the written exam, you are allowed to use electronic calculators that can do the basic operations (+, −, ×, /), and more advanced functions (root, power, log, sin, factorial, π).

Forbidden types

You are not allowed to bring graphical calculators, calculators that can integrate or differentiate functions, do matrix algebra, or have a memory that can store complete texts or run programs. You are also not allowed to use a calculator app.

Unsure?

Please check with us if you want to be sure. Use of a forbidden type may be considered as an attempt to commit fraud, according to the rules of VU.
